

## ASSESSMENT INFORMATION FOR STUDENTS – SUMMER 2021

### SUBJECT: COMPUTER SCIENCE

#### YEAR GROUP: 11

Week	Curriculum Coverage	Scheduled Assessment	Intervention	Standardisation Activities
Wednesday 31st March P4	CAG 1: Computer Systems Systems Security - This is to replace the SLR 1.6	30 - 45 min end of topic questions	<p>Every lesson in the build up to the test will be based solely on that topic. Techniques used will be modelling exam questions, students will be issued with specific revision guide pages and links to videos for the specific topic. They will be issued with worksheets where they can mark themselves and tick their own confidence levels for the topic.</p> <p>Lunchtime sessions will be put in place for extra support on the topic for students that feel they need the extra help.</p>	Three papers given to line manager to check against mark scheme.
Friday 23rd April P3	CAG 2: Computer Systems Systems Software			
Thursday 29th April P2	CAG 3: Computational thinking, algorithms and programming Computer Logic			
Friday 7th May P3	CAG 4: Computational thinking, algorithms and programming Translators			
Thursday 20th May P2	CAG 5: Computational thinking, algorithms and programming Data Representation			
Wednesday 26th May P2	CAG 6: Network Topologies This will replace SLR 1.5 EUT
