

North Halifax Grammar School: A Level Results 2023

Sixth Form students across the country have had a challenging few years leading up to these results and NHGS students are no exception. No amount of protection built into the grading process can adequately reflect this. We are immensely proud of the character and dedication NHGS Sixth Formers have shown throughout and these results are a worthy testament to their perseverance and endeavour.

Our heartfelt congratulations to all our students but a particular mention to the 19 students who achieved all A*/ A grade results. Together with the rest of our Year 13 students, they are going onto a range of destinations. The vast majority will begin degree courses in a variety of subjects in the university of their choice, many of them Russell Group, while others begin apprenticeships. Students have chosen to explore courses including English Language and Literature at Oxford, Electronic Engineering with Space Science at Bath, and degree apprenticeships with prestigious firms such as BAE.

While these qualifications are important for our students it will be their qualities that will ultimately set them apart. In addition to studying for their A levels they have led and participated in a range of extracurricular activities, supporting charities and communities as well as younger students both at NHGS and in local primaries. What they have learned, like so many other students across the country, will help us all to build a better and more caring society. Well done to every Sixth Form student, wherever they are. This is just the beginning; the world awaits you.

Desmond Deehan
Headteacher
