

### **Sixth Form Open Evening Covid Safety Information**

Please can all visitors complete a Lateral Flow Test and bring the test, an email showing it is registered or a photo of it with you on the evening. Alternatively visitors can show a covid passport with the triple vaccination status showing.

Ventilation in the building will be maximised and all visitors, staff and students will be asked to wear face coverings throughout the evening. Where possible, please can we ask that one parent accompany a student to reduce the number of visitors.

At present we are preparing to go ahead with the evening. The fact that all students are being tested in schools two days before the event should reduce any transmission. We will monitor the situation over the holiday period and post any change on the website.
